

Film Bags delivered in Boxes

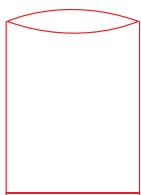

Film bags out of LDPE and MDPE in every desired quality and strength from 10 microns to 100 microns.

The perfect film bags for your type of packaging. Usable for storing, protecting, transporting, presenting, etc... all this and much more - no problem for the film bags of MEVO - Made in Austria.

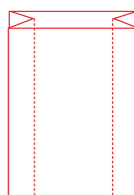

Bags

- with bottom seam or side seam
- needled, punched or with butterfly stamp

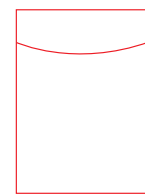

Bags side-folded

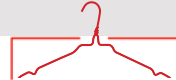

- with bottom seam
- larger volume due to the side-fold
- suitable for lining in boxes, cages, etc.
- needled, punched or with butterfly stamp

Bags with hinged cover

- with bottom seam
- bondable
- with adhesive coated cover
- punched or with butterfly stamp

material	LDPE, MDPE, LLDPE, Recycling Material		
strength	10 microns to 100 microns		
width	in consultation		
length	in consultation		
perforation	facon / bottle neck	straight with or without hook hole	
colour	transparent or coloured		
print	single-colour printed or two-colour printed on the front; continuous printing		
punch / butterfly stamp	especially suitable for goods with residual moisture		
needling	guarantees the leakage of air and residual moisture		
antiblock	unproblematic opening of the plastic film; products do not stick to the plastic film		
antistatic	against static charging and easy unwinding of the plastic film at processing		
smoothness	guarantees an easy „gliding through“ of the goods		
recycling	100 % recyclable		
offer	to the customer request: per box or per 1000 pcs
